

В апреле 2018 в базу данных ПО VactoSCREEN добавлена информация о ряде новых видов (Обновление 0418):

1. *Afipia broomeae*  
*Afipia felis*
2. *Afipia massiliensis*  
*Alicyclobacillus acidocaldarius*
3. *Alicyclobacillus acidoterrestris*
4. *Anaerobiospirillum succiniciproducens*
5. *Arcobacter cryaerophilus*
6. *Atopobium parvulum*
7. *Atopobium sp*
8. *Bacillus pseudofirmus*
9. *Bacteroides cellulosilyticus*  
*Bacteroides coprocola*  
*Bacteroides coprophilus*  
*Bacteroides fluxus*  
*Bacteroides oleiciplenus*  
*Bacteroides plebeius*
10. *Bacteroides pyogenes*  
*Bibersteinia trehalosi*  
*Bifidobacterium scardovii*  
*Bordetella avium*
11. *Brachybacterium nesterenkovii*  
*Brachyspira innocens*  
*Brachyspira intermedia*
12. *Brachyspira pilosicoli*  
*Brochothrix thermosphacta*
13. *Bulleidia extracta*  
*Campylobacter concisus*
14. *Campylobacter sputorum*  
*Caulobacter sp*  
*Chryseobacterium hominis*
15. *Clostridium acetobutylicum*  
*Clostridium aciditolerans*
16. *Clostridium aerotolerans*
17. *Clostridium algidicarnis*

18. *Clostridium algidixylanolyticum*  
*Clostridium aminophilum*
19. *Clostridium bifermentans*  
*Clostridium carboxidivorans*
20. *Clostridium cellobioparum*  
*Clostridium collagenovorans*
21. *Clostridium diolis*
22. *Clostridium drakei*
23. *Clostridium formicaceticum*
24. *Clostridium frigoris*  
*Clostridium glycyrrhizinilyticum*  
*Clostridium halophilum*  
*Clostridium hiranonis*
25. *Clostridium homopropionicum*
26. *Clostridium hylemonae*
27. *Clostridium jejuense*
28. *Clostridium lactatifermentans*
29. *Clostridium lentocellum*
30. *Clostridium magnum*
31. *Clostridium mayombei*
32. *Clostridium papyrosolvans*  
*Clostridium phytofermentans*
33. *Clostridium propionicum*  
*Clostridium saccharogumia*
34. *Clostridium sartagoforme*  
*Clostridium thermopalmarium*
35. *Clostridium tunisiense*
36. *Clostridium tyrobutyricum*
37. *Clostridium xylanovorans*
38. *Corynebacterium bovis*
39. *Corynebacterium glutamicum*
40. *Corynebacterium pseudotuberculosis*
41. *Corynebacterium renale*  
*Delftia sp*  
*Dialister pneumosintes*

42. *Enterococcus cecorum*
  - Escherichia hermannii*
  - Exiguobacterium sp*
43. *Fusobacterium canifelinum*
  - Fusobacterium gonidiaformans*
44. *Fusobacterium naviforme*
  - Fusobacterium periodonticum*
  - Fusobacterium ulcerans*
45. *Gallibacterium anatis*
  - Gardnerella sp*
  - Globicatella sulfidifaciens*
  - Haemophilus parasuis*
  - Helcococcus ovis*
  - Helcococcus sueciensis*
  - Herbaspirillum aquaticum*
46. *Herbaspirillum autotrophicum*
  - Herbaspirillum chlorophenolicum*
  - Herbaspirillum frisingense*
47. *Herbaspirillum hiltneri*
  - Herbaspirillum lusitanum*
48. *Herbaspirillum rhizosphaerae*
  - Herbaspirillum seropedicae*
49. *Herbaspirillum sp*
  - Kerstesia gyiorum*
50. *Kocuria palustris*
  - Lactobacillus vaginalis*
  - Lactococcus piscium*
51. *Lautropia mirabilis*
52. *Leptotrichia sp*
  - Leptotrichia trevisanii*
53. *Leptotrichia wadei*
54. *Leuconostoc carnosum*
55. *Leuconostoc gelidum*
  - Leuconostoc holzapfelii*
56. *Leuconostoc inhae*
  - Leuconostoc palmae*
57. *Mannheimia haemolytica*

- 58. *Megasphaera micronuciformis*
  - Micrococcus lylae*
  - Mobiluncus sp*
  - Moorella thermoacetica*
- 59. *Moraxella boevrei*
- 60. *Moraxella bovis*
- 61. *Moraxella bovoculi*
- 62. *Moraxella pluranimalium*
  - Moraxella sp*
- 63. *Murdochiella asaccharolytica*
- 64. *Mycoplasma alkalescens*
- 65. *Mycoplasma argini*
  - Mycoplasma bovirhinis*
- 66. *Mycoplasma bovis*
  - Mycoplasma canis*
  - Mycoplasma ovipneumoniae*
- 67. *Mycoplasma pullorum*
- 68. *Ochrobactrum sp*
  - Olsenella profusa*
- 69. *Olsenella uli*
- 70. *Ornithobacterium rhinotracheale*
- 71. *Paenibacillus humicus*
  - Paenibacillus residui*
- 72. *Pantoea calida*
  - Pantoea gaviniae*
  - Parascardovia denticolens*
  - Pasteurella bettyae*
  - Pasteurella stomatis*
  - Pelomonas saccharophila*
- 73. *Pelomonas sp*
- 74. *Peptococcus niger*
- 75. *Peptoniphilus gorbachii*
- 76. *Peptoniphilus indolicus*
  - Peptoniphilus sp*
- 77. *Porphyromonas bennonis*
  - Porphyromonas catoniae*
  - Porphyromonas endodontalis*

78. *Porphyromonas macacae*
79. *Porphyromonas somerae*
80. *Porphyromonas sp*
81. *Porphyromonas uenonis*
82. *Prevotella copri*
  - Prevotella dentalis*
83. *Prevotella denticola*
84. *Prevotella heparinolytica*
85. *Prevotella histicola*
86. *Prevotella loescheii*
  - Prevotella marshii*
  - Prevotella micans*
  - Prevotella oulorum*
87. *Prevotella timonensis*
  - Prevotella veroralis*
  - Propionibacterium acidifaciens*
  - Pseudacidovorax intermedius*
  - Pseudomonas alcaliphila*
88. *Pseudomonas azotifigens*
89. *Pseudomonas panipatensis*
  - Pseudomonas xanthomarina*
90. *Pseudonocardia hydrocarbonoxydans*
91. *Riemerella anatipestifer*
  - Selenomonas infelix*
92. *Selenomonas sputigena*
  - Solobacterium moorei*
93. *Staphylococcus arlettae*
94. *Staphylococcus delphini*
  - Staphylococcus equorum*
  - Staphylococcus felis*
  - Staphylococcus pseudintermedius*
  - Staphylococcus sp*
  - Streptobacillus moniliformis*
95. *Streptococcus alactolyticus*
96. *Streptococcus criceti*
97. *Streptococcus devriesei*

98. *Streptococcus halichoeri*  
*Streptococcus henryi*
99. *Streptococcus infantarius*
100. *Streptococcus infantis*
101. *Streptococcus lutetiensis*
102. *Streptococcus massiliensis*  
*Streptococcus merionis*
103. *Streptococcus peroris*
104. *Streptococcus pseudopneumoniae*  
*Streptococcus ratti*  
*Streptococcus suis*  
*Streptococcus uberis*
105. *Sutterella wadsworthensis*  
*Taylorella asinigenitalis*
106. *Taylorella equigenitalis*  
*Trueperella abortusis*  
*Trueperella bonasi*  
*Varibaculum cambriense*  
*Vibrio mytili*
107. *Vibrio rumoiensis*

Введены принятые в последнее время новые названия некоторых микроорганизмов.

Внесены подвиды *Streptococcus equi*.
